

j4copy graphical user interface (GUI)

Table of contents

1 Launching.....	2
2 Screenshots.....	2

1. Launching

To run j4copy GUI, just type:

```
j4copy_gui
```

or

```
j4copy_gui <filename>
```

Note: on Windows, you may also double-click on file `j4copy_gui.bat`

There are currently no other command line options.

2. Screenshots
