

# Todo List

## Table of contents

1 high.....	2
2 medium.....	2
3 low.....	2

**1. high**

- **[samples]** Provide sample source code that uses j4copy API (other than CmdLine.java) # SKO

**2. medium**

- **[docs]** Improve Web site ergonomony (this requires a few time though). The purpose is however not to have a nice web site, but a nice tool properly tested and documented # SKO

**3. low**

- **[code]** Implement abstract file access to allow support for FTP, WebDAV, and others # SKO
